COMMISSION MERCHANTS.

THE undersigned, having this day entered into a copartnership under the firm of BROWN & LARKIN, in the Red Warehouse at the foot of East Water street, near Walker's Point Bridge, would announce to their numerous friends and customers, that they are now doubly prepared to serve them promptly and efficiently, in every branch of their business.

Particular attention will be given to PURCHASING and SHIPPING WHEAT and other Produce for dealers in this market; also, to Storing Wheat for Merchants and Farmers, on the most favorable terms.

The business of Receiving and Forwarding Merchandize for Merchants and others, in the city and country, is particularly solicited, to which careful and prompt attention will at all times be given.

In disposing of Property entrusted to us to be sold on Commission, our effort will be to obtain the best price in the market, and make quick and accurate returns for the same.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

EMPIRE INSURANCE COMPANY,

Union Springs, N. Y.
CAPITAL...............................$100,000.

THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."

They submit for the judgment of their fellow citizens the following summary of their plan of operations:

1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c., and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.

The Directors, in soliciting patronage for the *Empire Insurance Company,* do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.

For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

Union Springs, N. Y.

THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.

Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.

Conditions of Membership.

A CERTIFICATE OF MEMBERSHIP will be forwarded on payment of $1,50 Admission Fee, and the first annual deposit mentioned below. Each member will be entitled to a Weekly Benefit during the time disabled by sickness or accident from attending to his ordinary business or occupation. THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 3000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

The Counter-Stroke.

Criminal Weakness and Felonious Deception

Just after breakfast one fine spring morning in 1837 an advertisement in the *Times* for a curate caught and fixed my attention. The salary was sufficiently remunerative for a bachelor, and the parish, as I personally knew, one of the most pleasantly situated in all Somersetshire. I instantly wrote, enclosing testimonials with which the Rev. Mr Townley, the rector, was so entirely satisfied, that the return-post brought me a positive engagement, unclogged with the slightest objection to one or two subsidiary items I had stipulated for. It thus happened that I became a principal, and in some degree mixed up with the train of events it is my present purpose to relate.

The rector I found to be a stout portly gentleman whose years already reached to between sixty and seventy. I met him at breakfast on the morning after my arrival, and his reception of me was most friendly. We had spoken together but for a few minutes, when one of the French windows that led from the breakfast-room into a shrubbery and flower garden, gently opened, and admitted a lady, just then, as I afterwards learned, in her nineteenth spring. I use this term almost unconsciously, for I cannot even now in the glowing summer of her life dissociate her image from that season of youth and joyousness.

She was introduced to me with old fashioned simplicity as "My grand daughter, Agnes Townley." It is difficult to look at beauty through other men's eyes, and in the present instance, I feel that I should fail miserably in the endeavor to stamp upon this blank, dead paper any adequate idea of the fresh loveliness, the rose bud beauty of that young girl. I will merely say, that her perfectly Grecian head wreathed with wavy *bandeaux* of bright hair, undulating with golden light, vividly brought to my mind Raphael's halo tinted portraiture of the Virgin—with this difference, that in place of the holy calm and resignation of the painting, there was in Agnes Townley a sparkling youth and life that even amidst the heat and glare of a crowded ball room or of a theatre irresistibly suggested and recalled the freshness and perfume of the morning—of a cloudless rosy morning of May. And far higher charm than feature-beauty, however exquisite, a sweetness of disposition, a kind gentleness of mind and temper, was evidenced in every line of her face, in every accent of the low-pitched silver voice, that breathed through lips made only to smile.

Let me own that I was greatly struck by so remarkable a combination of rare endowments, and this I think the sharp eyed rector must have perceived, or he might not perhaps have been so immediately communicative with respect to the near prospects of this idolised grandchild, as he was the moment the young lady, after presiding at the breakfast-table, withdrew.

"We shall have gay doings, Mr Tyrrel, at the rectory shortly," he said. "Next Monday three weeks will, with the blessing of God, be Agnes Townley's wedding day."

"Yes," rejoined the rector, turning towards and examining some flowers which Miss Townley had brought in and placed on the table. "Yes, it has been for some time settled that Agnes shall on that day be united in holy wedlock to Mr Arbuthnot."

"Mr Arbuthnot of Elm Park?"

"A great match is it not, in a worldly point of view?" replied Mr Townley, with a pleasant smile at the tone of my exclamation. "And much better than that, Robert Arbuthnot is a young man of a high and noble nature, as well as devotedly attached to Agnes. He will, I doubt not, prove in every respect a husband deserving and worthy of her, and that, from the lips of a doting old grandpapa, must be esteemed high praise. You will see him presently."

I did see him often, and quite agreed to the rector's estimate of his future grandson-in-law. I have not frequently seen a finer looking young man. His age was twenty six, and certainly one of a more honorable or kindly spirit, of a more genial temper than his has never come within my observation. He had drawn a great prize in the matrimonial lottery.

They were married at the time agreed upon, and the day was kept not only at Elm Park, and in the neighborhood, but throughout the parish as a general holiday. And strangely enough—at least I have never met with another instance of the kind—it was held by our entire female community, high as well as low, that the match was a perfectly equal one, notwithstanding that wealth and worldly position were entirely on the bridegroom's side.

The days, weeks, months of wedded life flew over Mr and Mrs Arbuthnot without a cloud save a few dark but transitory ones which I saw now and then flit over the husband's countenance as the time when he should become a father drew near, and came to be more and more spoken of. "I could not survive her," said Mr Arbuthnot one day, in reply to a chance observation of the rector's, [illegible] indeed done to death." The gray-headed man seized and warmly pressed the husband's hand, and tears of sympathy filled his eyes, yet did he not the less utter grave words on the sinfulness of despair under any circumstances, and the duty in all trials, however heavy, of patient submission to the will of God.

It was of course decided that the expected heir or heiress should be intrusted to a wet-nurse, and a Mrs Danby, the wife of a miller living not very far from the rectory, was engaged for that purpose. I had frequently seen the woman, and her name, as the rector and I were one evening gossiping over our tea, on some subject or other that I forget, came up.

"A likely person," I remarked. "Healthy, very good looking, and one might make oath, a true hearted creature—but there is withal a timidity, a frightedness in her manner which, if I may hazard a perhaps uncharitable conjecture, speaks ill for that smart husband of hers."

"You have hit the mark precisely, my dear sir. Danby is a sorry fellow, and a domestic tyrant to boot. His wife, who is really a good, humble hearted person, lived with us once. How old do you suppose her to be?"

"Five and twenty, perhaps."

"Six years more than that. She has a son of the name of Harper by a former marriage, who is in his tenth year. Anne wasn't a widow long. Danby was caught by her good looks, and she by the bait of a well-provided home. Unless, however, her husband gives up his corn speculations, she will not I think have that much longer."

"Corn speculations! Surely Danby has no means adequate to indulgence in such a game as that."

"Not he. But about two years ago he bought on credit, I believe, a considerable quantity of wheat, and prices happening to fly suddenly up just then, he made a large profit. This has quite turned his head, which by-the-by was never [illegible] quite rightly screwed on." The announcement of a visitor interrupted anything further the rector might have had to say, and I soon afterwards went home.

A sad accident occurred about a month subsequent to the foregoing conversation. The rector was out riding upon a usually quiet horse, which all at once took it into his head to shy at a scarecrow it must have seen scores of times, and thereby threw its rider. Help was fortunately at hand, and the reverend gentleman was instantly conveyed home, when it was found that his left thigh was broken. Thanks, however, to his temperate habits, it was not probable that the lusty winter of his life would be shortened by what had happened. Unfortunately the accident threatened to have evil consequences in another quarter. Immediately after it occurred, one Mathews, a busy, thick headed lout of a butcher, rode furiously off to Elm Park with the news. Mrs Arbuthnot, who daily looked to be confined, was walking with her husband upon the lawn in front of the house, when the great burly blockhead rode up and blurted out that the rector had been thrown from his horse, and it was feared killed!

The shock of such an announcement was of course overwhelming. A few hours afterwards Mrs Arbuthnot gave birth to a healthy male child! but the young mother's life, assailed by fever, was for many days utterly despaired of—for weeks held so tremblingly even in the balance, that the slightest adverse circumstance might in a moment turn the scale deathward. At length the black horizon that seemed to encompass us so hopelessly brightened, and faded; the fever-burst and [illegible] hope of his vanished [illegible] well-nigh departed of Eden. The promise was fulfilled—I was in the library with Mr Arbuthnot, awaiting the physician's morning report, very anxiously expected at the rectory, when Dr Lindley entered the apartment in evidently a cheerful mood.

"You have been needlessly alarmed," he said. "There is no fear whatever of a relapse. Weakness only remains, and that we shall slowly, perhaps, but certainly recover."

A [illegible] light seemed to flash over Mr Arbuthnot's countenance. "Thank God!" he exclaimed. "And how," he added, "shall we manage respecting the child? She asks for it incessantly."

Mr Arbuthnot's infant son, I should state, had been consigned immediately after its birth to the care of Mrs Danby, who had [illegible] also with a boy [illegible] of [illegible]. Scarlatina being prevalent in the neighborhood, Mrs Danby was hurried away with the two children to a place near Bath, directly [illegible] she was able to bear the journey. Mr Arbuthnot had not left his wife for an hour, and consequently had only seen his child for a few minutes just after it was born.

"With respect to the child," replied Dr Lindley, "I am of opinion that Mrs Arbuthnot may see it in a day or two. Say the third day from this, if all goes well. I think we may venture so far, but I will be present, for any untoward agitation might be perhaps instantly fatal." This point provisionally settled, we all three went our several ways, I to cheer the still suffering rector with the good news.

The next day but one Mr Arbuthnot was in exuberant spirits. "Dr Lindley's report is even more favorable than we had anticipated," he said, "and I start to-morrow morning to bring Mrs Danby and the child——" The postman's subdued but unmistakable knock interrupted him. "The nurse," he added, "is very attentive and punctual. She writes almost every day." A servant entered with a salver heaped with letters.

Mr Arbuthnot tossed them over eagerly, and seizing one after glancing at the post mark, tore it eagerly open, muttering as he did so—"It is not the usual handwriting, but from her, no doubt."

"Merciful God!" I impulsively exclaimed, as I suddenly lifted my eyes to his. "What is the matter?" A mortal pallor had spread over Mr Arbuthnot's before animated features, and he was glaring at the letter in his hand as if a basilisk had suddenly confronted him. Another moment, and the muscles of his frame appeared to give way suddenly, and he dropped heavily into the easy chair from which he had risen to take the letters. I was terribly alarmed, and first loosening his neckerchief, for he seemed choking, I said—"Let me call some one," and I turned to reach the bell, when he instantly seized my arms and held me with a grip of iron. "No—no—no!" he hoarsely gasped. "Water—water!" There was fortunately some on a side-table. I handed it to him, and he drank eagerly. It appeared to revive him a little. He thrust the crumpled letter into his pocket, and said in a low, quick whisper—"There is some one coming!" "Not a word, remember—not a word!" At the same time, he wheeled his chair half round so that his back should be towards the servant we heard approaching.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

New York, June 11th

This is certainly the age, and this too, the season, of cheap expeditions and pleasant travel. Leaving Milwaukee at 8 o'clock last Thursday morning, we reached this city at 8 A M yesterday, in just three days. Had we arrived at Buffalo half an hour earlier, Saturday morning, we should have got to N Y Saturday at 10 o'clock, in 2 days 11 hours from Milwaukee, and for $17 10 fare—distance about 1150 miles! I do not believe that a quicker, pleasanter or cheaper route of travel can found in the world.

Our trip throughout was an agreeable one. On Lake Michigan it was enlivened by a smart little race with the steamer *Golden Gate*, which made her first appearance on our waters last Thursday. The *Golden Gate* could not indeed keep way with the *Arctic*, which is one of the fastest steamers on the Lake, but she ran well and looked handsomely on the water. The *Arctic* landed us at Chicago in 6 hours 41 minutes, including all stops, leaving us five or six hours, previous to the departure of the Rail Road trains for the East, to look about Chicago.

Chicago is going ahead with great strides. You see, on every hand, unmistakable evidence of rapid growth and great and growing prosperity. New buildings, some of them very large and costly, are going up in all directions. The river is crowded with craft of various sorts and sizes. The streets are full of teams and the stores and shops thronged with customers. The swelling tide of travel and emigration pours its full volume through every channel, leading into the city, and fills its numerous Hotels to overflowing. Among these Hotels there are several very good ones, and one, the Tremont, which can safely challenge comparison with any in the West. It is now abundantly patronized and no doubt helps to draw and detain pleasure travellers, especially, in the "Garden City." When Milwaukee can boast of a similar Hotel she too will come in for a full share of the tide of travel; for, with that single exception she presents very superior attractions to her sister city, Chicago.

Desiring to pass over the Southern Michigan Rail Road by daylight we took the Central route coming East. The night train left Chicago at 9 o'clock punctually, and by a few minutes past 9 the next morning landed us in Detroit. The road is vastly improved since last year. The track is smooth, solid; the cars neat and comfortable; the conductors civil and accommodating; the trains run up to schedule time, and the whole service of the road has undergone a marked and decided change for the better. So much for competition. The only drawback we met with was a cold breakfast at Marshall. It was emphatically a *cheap* entertainment. The Company should insist upon the meals at this general stopping place for all the trains being brought up to a respectable standard.

At Detroit we found the good steamer *Ocean*, Capt McBride, waiting for us. A very few minutes sufficed to transfer passengers, luggage and freights, from the cars to the boat, and at a quarter before 10 we were off for Buffalo. The *Ocean* is in fine order, and admirably managed. Capt McBride remembers his Western friends and makes abundant provision for their comfort while the Steward, Mr Ladd, sets a table that should satisfy the greatest epicure. We made the run to Buffalo in about 19 hours. Failing, however, to arrive in time for the first Express Train at 5 A M, as we had an hour or two to spare before the next train started, we went to the American for breakfast. I had heard somewhere that this favorite Hotel was not as well kept now as formerly. Certainly however my experience led me to just the opposite conclusion. No fault at least, could be found with our breakfast, which the whole party pronounced excellent and noted worthy of special mention in the *Sentinel*.

At 8 a m Saturday, in company with some five or six hundred others, we started in the Express train for Albany. The day was delightful, the country wore its richest robes, acquaintances multiplied as the cars moved Eastward, and altogether the ride was a very pleasant one. On this road, as well as on the Michigan Central, there is a marked improvement over last year.—The speed is increased, the fare reduced, and more pains taken to make passengers comfortable. I notice, however, two defects which ought to be corrected. The first and most serious one is the frequent change of cars. At Rochester and at Utica we were notified to "change cars," and instantly a rush took place that was uncomfortable enough for the men, and must have been exceedingly annoying and disagreeable for the women and children. As the transfer from one train to another has to be quickly effected, it is no easy matter for ladies travelling with children, with their shawls, satchels, baskets, &c, to make the change in the midst of the rush and crush, and still less easy to get all together again in the new train. I noticed on Saturday several parties separated in this way in the throng, and more than one half distraught woman, with her affections and anxieties divided between children and carpet bags, utterly bewildered by the din and at a loss which way to move. I cannot discover any practical difficulty in the way of having the *same* train of cars run through daily from Buffalo to Albany. It would be a very great improvement. Another pressing want in these cars is a supply of good and cool water. The Express trains make such short stops and passengers are so much in the dark as to *how* short these stops may be, that very few venture to leave the trains even for a moment. In consequence, during warm weather especially, there is great suffering among children for want of water. Why should not jars of fresh cool water be placed in all the cars, and refilled at every station where the trains stop long enough?

The traffic on this central route is enormous.—Seven trains a day pass over the road each way. In our rapid flight Eastward we met several trains bound in the opposite direction, and among them an Emigrant train carrying full 800 new settlers to the inviting prairies and openings of the West. We made good time all the way down to Albany, reaching the old Dutch Capital at a quarter past 8 in the evening. The *Hendrik Hudson* lay at the dock, ready to receive us. She is a noble boat and can accommodate several hundred passengers. We found however, the advantage of "taking time by the fore lock," having telegraphed from Buffalo for State-rooms which were all ready for us on our arrival, while some of our fellow passengers, for want of a like precaution, had to take up with berths below deck.

We found to our surprise, that the water in the river was quite low, and within a mile or two from Albany we plumped upon a bar, and there stuck till nearly midnight. Then the tide lifted us a little, and we were once more under way for New York. At eight o'clock yesterday morning we reached the wharf in this city, which was besieged and presently stormed by an army of importunate hackmen, porters and runners. As there was no appearance of a police officer near the spot, these troublesome and clamorous customers elbowed, joked and worried the passengers to their hearts' content. I had no idea that in these enlightened days such a nuisance would be tolerated for a moment in the City of New York.

The Hotels here are all crowded and the great topic is the next Presidency and the probabilities of the Whig nomination therefor. As the result itself will reach you as soon as this letter, I shall not attempt to play the prophet. I have little doubt however that with either Scott, or Webster we can *win the field*. The nomination of Mr Pierce tho' it unites apparently the Loco Foco party, does not and *cannot* secure their enthusiastic support. Too many of the old Veterans feel keenly the impropriety and injustice of such a selection. The Charleston *Mercury* speaks their sentiments briefly in the following paragraph:

"When a party throws aside all its most distinguished men, the only men capable of giving consistency to its counsels and vigor to its movements—when it disowns its leaders and representatives, and for motives of temporary advantage, crowns with highest honors *obscure men*, it ceases in any respectable sense to be a party, and *becomes a mere herd of spoilsmen*. We have no ambition to be [illegible] in such a crowd."

This feeling will spread far and wide as the election approaches, and transfer thousands of votes from the Loco Foco to the Whig candidate.

THE TRUTH OF HISTORY.

Said a brilliant friend of ours once on a time "I don't care to read history; it prejudices a man so much; I find it much the more philosophic method to study out the subject treated of, and then *develop the facts myself*."

Some such sharp practice must have been made by our friend Mr CHAS JAMES, when concocting his speech made at the late ratification meeting and printed in full in the *Morning News*. Let it be borne in mind that the burden of the speech is the glory of Democracy, and Mr Pierce's military achievements in the valley of Mexico. Says Mr JAMES:—

"At the battle of Contreras, while *leading on his division* under a perfect shower of shot, his horse fell under him on a ledge of rocks in such a manner as to nearly disable him. He was however soon helped into another saddle, from which a fellow officer had just been shot, and *continued the charge* until fainting from his wounds and bruises he fell, almost under the very batteries of the enemy.

That awful night, so memorable in the annals of that little army, suffering from his wounds he lay on the ground away from his attendants without tent or covering and exposed to the peltings of a most pitiless storm.

On the glorious morn that followed, however he *joined in the pursuit of the retreating enemy and continued it until an order reached him* from the Commander-in-Chief appointing him one of the Commissioners to meet the Commissioners on the part of the Mexicans, to negotiate an armistice. He performed that duty, and on the same day, though he had been without rest since the battle commenced, and he had endured all the time since the fall of his horse great physical suffering, he visited the hospital to cheer the wounded soldiers."

Now let us examine this matter a little and see how the glorious facts "developed" by Mr JAMES for the benefit of the people, correspond with the plain history of the battles in Mexico as taken from the official record:—

It was on the afternoon of the 19th of August that the American army, after turning south of Lake Chalco, took up its position in front of the fort of Contreras. The batteries of the fort were opened upon them but with no great effect. Several charges were made by Mexican troops upon the advance of the Americans consisting of the Rifles, 1st Artillery, and Infantry. These were the only troops engaged in that indecisive action which only served to show Gen Scott the position and strength of the Mexicans. No *charge* was made by Gen'l Pierce or his division, but we have his own report in the words following:

"It was my misfortune to receive a severe injury from the fall of my horse on the afternoon of the 19th."

So much for the first paragraph of Mr James' history.

During the night of the 19th arrangements were made, and on the truly glorious morning of the 20th, at daylight, the fort was stormed by the divisions or part of the divisions of Gen'ls Smith, Riley, Cadwallader and *Pierce*, the latter under command of Col Ransom. Gen'l Pierce says in his report:

"I was unable to keep my saddle or walk, and the command devolved on Col Ransom."

After the capture of the fort, the American troops moved onwards, at 8 A M of the 20th towards Churubusco by different routes, Gen Worth and Quitman, who had been on their way to assist in the attack on Contreras, countermarching upon the fort at San Antonio. This fort was evacuated and the troops all pushed forward, Twiggs and Pillow's brigades (Pierce's division belonging to the latter) moving through San Angel upon the fortified bridge. At about 1 P M the divisions were in position for the battle of Churubusco. A change of position shortly after placed the Rifles and Pierce's brigade under the command of Gen Shields, whose particular troops consisted of the N Y and S C volunteers. These troops bore a conspicuous part in the battle.—Says one account, describing them marching to the attack—

"Gen'l Pierce fell fainting from his horse"—and the democratic hero says in his own report:

"In the effort to struggle over the difficulties of the ground I fell fainting from exhaustion a few yards from the severest fire of the enemy's line."

So much for Gen'l Pierce's participation in the battle of Contreras and Cherubusco.

And further, our imaginative historian pictures forth the gallant General pursuing the fugitive Mexicans with revengeful eye, and gleaming sword uplifted, on the 20th, until he was recalled by an order from Gen Scott to act as one of the Commissioners to negotiate our armistice. Stubborn fact insists that Gen'l Pierce fainted at the beginning of the battle of Churubusco and was *hors du combat*, and also that it was not till Gen Scott had gone forward, after that bloody battle, to Tacubaya, on the morning of the 21st, that the request of Pacheco, the Mexican minister, for an armistice was listened to! Mr James omits all allusions to Churubusco, and crowds the whole business of the armistice into the 20th, when nothing was done about it till next day.

We are inclined to think that our enthusiastic historian must have been travelling for some years, and lost the run of "Democratic" history.

Harbors and Rivers.

Resolved, That the Constitution does not confer upon the General Government the power to commence and carry on a general system of Internal Improvements.—*Loco Foco Platform*.

The above resolution is literally all the comfort which the great West is furnished by the late Baltimore Convention upon the subject of the safety of life and property upon its waters. The resolution is on its face, against a "*general system*," but there is no indication that the party countenances any *particular* system or any system at all. And indeed since Mr Polk's advent to power the party has defeated all sorts of appropriation of this nature. Its doctrine was thus laid down by President Polk, in his message vetoing the Harbor Bill passed by Congress:

"The power of appropriating money from the treasury for such improvements was not claimed or exercised for more than thirty years after the organization of Government in 1789, when a more latitudinarian construction was indicated though it was not broadly asserted and exercised until 1825."

When that message was received by the Whig House of Representatives, they passed the following resolutions by nearly a strict party vote:

☞ The mouth of the Mississippi river is becoming difficult for the passage of large vessels.—The ship Winchester, from New Orleans for Liverpool, with the largest cargo of cotton ever taken from that port, was recently detained sixty days before she succeeded in getting over the bar to proceed on her voyage across the ocean.

A Matter of taste.

The Madison *Argus & Democrat* says of Senator KING, the candidate of the party for Vice President:

"There is probably no man living who commands so large a share of public respect and confidence as Col King. Throughout the exciting sectional discussions of the past four years he—though maintaining his positions and his side with firmness and decision—has uniformly maintained a graceful dignity becoming an American Senator and offending none."

Mr KING wrote as follows in his well known Donaldson letter:

"The divisions which unfortunately exist in the Democratic party, are indeed, as you so forcibly represent, deeply to be deplored, and a serious question is presented, can the evil be remedied? For one I must confess that I can see no such indications, either North or South, as would lead to the belief that the breach will be speedily closed up; *for so long as a large portion of the northern democracy at the North lend themselves to the* advocacy of Free Soil doctrines and make common cause *with the [illegible] abolitionists and the [illegible]*, no portion of the Southern Democracy will ever be found acting in concert with them. *All our troubles have arisen from the [illegible] conduct of those professing Democrats* in whom the Democracy once reposed unbounded confidence, and felt delighted to honor."

There was a time when the *Argus* had little occasion to regard for "Free Soil doctrines" and when it would not have advertised Mr King's letter as a specimen of "graceful dignity." Times change.

☞ The *Morning News*, in defence of its reckless charge against the Whigs of New Hampshire relative to the religious test in that state, says:

"The whig press with a recklessness of truth and decency that evinces the desperation of their cause opened the campaign by charging upon General Pierce that he was responsible for the religious test in the Constitution of New Hampshire which deprived Catholics of the right to hold certain offices."

Won't the *News* look up its authorities and inform its readers what whig presses have charged Mr Pierce with the wrong mentioned? The accusation is broad—against the whig press of the country—and unless the *News* can show that any respectable portion of the whig press, in position or numbers, has taken the course mentioned—We have seen no such thing in *any* whig press,—and shall condemn it wherever we may see it.

THE NORTHERN INDIANA.—This superb boat has recently visited Detroit. The *Advertiser*,—all the while insisting that the *Mayflower* is the better, handsomer and faster boat—thus "sets up" her rival for the broom:

"The swan of our St Mary's Lake never sat on the water, or stemmed the tide with the ease and beauty of motion, that this steamer swims Lake Erie.

If her outward graces are so obvious, her inside fitting up is not less beautiful and ornate. Couches, ottomans, sofas of crimson and dark blue damask are arranged in every cabin. Lamps whose lustre would have charmed Haroun al Raschid, state-rooms that are very boudoirs, with just carving and gilding enough to show to advantage in every part, render the cabins of the Northern Indiana the acme of steamboat luxury.

Nor can her officers be bettered. Who is better known on the Lakes than her commander, Capt Wagstaff? His assistants are Mr Mead as Mate and J Y Morton as Clerk. Her engineer is Fitzpatrick, and her steward is Mr Geo Sanders. The latter is a proprietor by profession and that alone is a sufficient guaranty that he knows how to perform his duty to the public under the most difficult circumstances."

DEVELOPING THE COUNTRY'S RESOURCES.—Hon Geo BANCROFT addressed the "unterrified democracy" in Tammany Hall last week, and among other things urged them to elect the Pierce ticket so as to carry on "the immense development of the country's resources." Was there ever a more absurd idea? A party which objects to vote [illegible], talks to death every River and Harbor Bill, and goes for returning this country to its colonial dependence upon England for even a hob nail!—talking of its patriotic desire to develop the immense resources of the country. A pretty mess they have made of it.

REASONABLE?—The Chicago *Democrat* says:

"It is the desire of the friends of Pierce and King that Judge Douglas should this fall make a tour of the Northern States of this Union, and address the people thereof, and especially is it desirable that he should speak in the doubtful States."

The Democracy mean to make the defeated candidates stand up to the rack, fodder or no fodder. They ought to have humanity enough to leave them at home long enough to digest their chagrin.

Backing one's Friends.

The Chicago *Democrat* ventures upon the following sneer at its candidate for the Presidency:

"We hope Scott will not 'faint' and fall from his horse at the convention."

CANADIAN TRADE.—What struck me the most forcibly, was the increase of Canadian business. Last year down to August 1st not over 10000 bbls flour were received from Canada; this season 13,000 bbls have already been landed on this dock. Surely Queen Vic's dominions begin to feel the million.—*Cor Boston Atlas*.

Don't our Western farmers think that flour ought to be admitted free of duty?

Resolved, That the Constitution of the U States vests in Congress the power to appropriate money to open and improve harbors, remove obstructions from navigable rivers in all cases where such improvements are necessary to the protection and facility of commerce with foreign nations or the commerce among the States. Adopted yeas 103—nays 65.

Resolved, That the interests of our national commerce, the common defence and general welfare of the United States require a judicious exercise of the foregoing powers. Adopted, yeas 112—nays 51.

There the two parties stood then, and there they stand now—only the Democratic party now has the face to present for the suffrages of the Western people a man positively and unequivocally committed against their interests!

MILWAUKEE FEMALE NORMAL INSTITUTE.—The *Wisconsin* gives the following list of articles deposited in the corner stone of the building on Wednesday afternoon:—

"A paper on which was written the names of the President of the United States and the Governor of Wisconsin; copy of the Charter of the Institution with the names of the Trustees; the first and only catalogue of the course of study in the Institution; names of the Board of Teachers; names of the Architect and Builders; a History of the Institution, its objects, &c; the daily papers of the city in English and German; copy of the City Charter; names of the City Officers; copies of the State and City School Laws; the City Directory and Map of the City for 1852."

THE FOREST CITY.—The following, which we take from the Detroit *Tribune*, explains the dispatches received a day or two since:

"*Sad Accident on board the Forest City*.—We regret to learn that the new and beautiful steamer, Forest City, collapsed a flue yesterday on her passage to Dunkirk, when ten miles out of Cleveland, killing three firemen. No damage was done to the boat herself, and the injury to her machinery can be repaired in three days. The accident probably resulted from some defect in the iron, as she had one of the most experienced and careful engineers in the country."

ENLARGEMENT.—The *Wisconsin Banner* comes to us enlarged by the addition of a column on each side, and in a clean new dress, an earnest of prosperity among the German press of our city which we are glad to notice.

WESTERN PLANK ROAD.—We are glad to learn from the Watertown *Chronicle* that the officers of the Plankroad company west of Watertown have obtained funds sufficient to build their road to the high lands west of Crawfish river, by the 1st of October next.

☞ The California Legislature have passed an act giving James L [illegible] power to construct a wagon road from the Sacramento Valley to the Oregon line, and to regulate the tolls thereon for the period of twenty-five years.

SOUTHERN MICHIGAN ROAD.—The Chicago *Tribune* states that the eating house at *White Pigeon*, the halfway station on the Southern Michigan railroad, will be finished within 10 days, and is to be kept in firstrate style.

THE MARTIN SUIT.—The Madison *Democrat* says that Messrs. TRUESDELL, COLLINS & SMITH prosecute the suit for Mr MARTIN, and Mr DOOLITTLE appears for the Governor.

We noticed some time since the fact that this Society had decided upon holding its first exhibition on the 30th day of this month. The Committee have prepared the list of premiums which we publish below. At this first exhibition the Society's certificates of merit only will be given as premiums. It is hoped that our citizens will feel sufficient interest in this Society to furnish out a creditable display and will add largely to its list of members. Timely notice will be given of the place of exhibition.—

Gen Scott's Religion.

From the Cleveland Forest City

The idea has got abroad in some manner, that Gen Scott is a Catholic. We presume it has grown out of the fact that one of his daughters belong to that Church and that he prevented his soldiery from pillaging Catholic Cathedrals of Mexico or ransacking their Convents or insulting their religious ceremonies, during the late war with that nation.

Gen Scott is an Episcopalian as we have been informed upon undoubted authority. On the subject of Gen Scott's religious sentiments the N Y Tribune very pertinently remarks:

"We have received some half dozen letters inquiring whether Gen Scott is or is not a Roman Catholic, and intimating that the answer will materially affect his vote, should he be nominated at Baltimore. We beg leave to answer all at once that we don't know to what religious denomination Gen Scott is attached, and that if we did know we should not say so in reply to any such applications as we have received. That Gen Scott is an honest conscientious God-fearing law-abiding man is abundantly known, and further than this we hold that no man has a right to inquire, with a view to the vote he is to cast for President. We knew interested men who electioneered against John Quincy Adams because he was a Unitarian; we know that the Chief Justice of the United States is a zealous Roman Catholic, but we never heard any body intimate that his integrity or fitness for his high station was at all affected by that circumstance. Gen Scott, we have understood, is an Episcopalian, but we never inquired what church he attended and never shall inquire. It will be a sad day for our country when any considerable number of votes for President can be influenced, one way or another, by the religious professions of the rival candidates."

RECKONING CHICKENS.—Hatching time has not quite arrived for them, but yet the New Hampshire Democrats are already counting their chickens. The Concord N H *Statesman* gives the following description of the state of affairs among the expectants of office in that quarter:

"A crazier set of people were never abroad than some now found at the capital of New Hampshire. Foreign Ambassadors, Heads of Departments, Consuls, and Charges d' Affaires, to say nothing of heads of bureaus at Washington and the endless army of minor officers, are as plenty as leaves in Vallambrosa."

It is the opinion of the Statesman that there are at least fifty in Concord who have not slept a wink since Friday night, so full have their heads been of embassadorships and other golden visions—all to be realized when Gen Pierce has the good luck to "get in." It is cruel to spoil sport, but we cannot help quoting, for the edification of these embassadors in embryo, an old couplet which we happen to recollect:

> "The man that once did sell the lion's skin
> While the beast lived, was killed with hunting him."

Boston Courier

HITHER THEY COME.—The settlement of the country above and around us is progressing with a rapidity unprecedented in the history of Western emigration. The road is lined with vehicles of every description, the Free Ferry is constantly running, and many are even then delayed. The bulk of the emigrants who cross the river are destined for the northern part of Iowa—to the counties Alamakee, Winneshiek and Clayton. These are the best class of settlers, being for the most part farmers with some means, and bringing with them large stocks of cattle and horses. Capital is also concentrating there, and many improvements are progressing. On Yellow River a saw mill is in process of erection and stores are being established; and on Paint Rock Prairie a new town has made its appearance dignified with the name of Winfield"—with the "Scott" left off. Think they should have this on—the Presidential election is approaching.—*Crawford Co Courier*.

BAD OMEN.—In making preparations for the grand celebration at Tammany Hall last week, the persons who had charge of hoisting the banners on which was inscribed the nominations fastened the rope on which it was slung to the hickory pole that has stood for years opposite the Hall and which had supported Polk and Dallas in '44 and Cass and Butler in '48. The weight was too much for the brave old hickory, which had suffered by decay, and it broke off about half mast high. The nominations, however, were fastened at the stump, and had all the appearance of being at half mast. Poor tree! it could not stand the disgrace of Cass, and gave way in the revulsion of feeling at the base use to which it had at last come.—*Detroit Advertiser*.

MAIL ROBBERY.—The Pittsburgh *Post* states that the mail pouch which left Pittsburgh for the East last Tuesday was stolen on the route, and drafts and large sums of money seized by the robbers. Of these $390 and drafts, the amount of which we have not learned, belonged to Messrs S Jones & Co; about $600 with drafts to Mr W A Hill; $100 in bank notes and drafts to General William Larimer; and drafts to the amount of from $8,000 to 9,000 to Messrs N Holmes & Sons. The package containing the money and drafts belonging to Gen Larimer, and directed to Drexel & Co, Philadelphia, was not lost, being accidently found on a car floor, and this circumstance led to the discovery of the robbery of the mail.—*Cleveland Herald*.

Baltimore, June 11

The chances of Senator Jones of Tennessee for the Vice Presidency are very favorable—his colleague in the Senate is also mentioned for the same office. The Webster men favor the former. There are some rumors of running Crittenden of Ky for the Presidency but the strong men of the party are opposed to it. Senator Pierce of Md will probably be elected President of the Convention.

Appropriation to the Collins Line.

Washington June 11

It is understood that the House Committee of Ways and Means have by a vote of 5 to 4 decided in favor of the Senate's amendment granting additional aid to the Collins steamship line.

THE KEYSTONE STATE.—This fine steamer was undergoing some slight repairs yesterday, and we witnessed the utility of a sub marine apparatus which was put on by one of the men engaged about her, and the portion of her bow which was under water was examined as easily as though she had been in dry dock.—*Detroit Adv*.

HARD TO TAKE.—We notice the Ratification meetings at Cleveland don't go down any better than they do here. The first one was attended by only 80 persons—a second was called, and fizzled also. We fear the Locofocos are going to "faint" before the battle commences.—*Chicago Journal*.

☞ The Steamer *Blackhawk* arrived, at our dock from Galena on Tuesday crowded with passengers. Also, the Steamer *Jenny Lind* from Oshkosh. They both left for Galena on Wednesday morning.—*Portage City Republic*.

☞ The late Locofoco Convention adopted a resolution declaring the opposition of the party to a United States Bank. At its next session it is expected to pass one declaring its opposition to Noah's flood.—*Cleveland Herald*.

City Matters.

LOOK OUT FOR SHOP LIFTERS.—A young woman, fashionable in her appearance, entered a Milliner's shop on Wisconsin St, yesterday with her bonnet trimmed with ribbon which had been stolen from there a month since. She was allowed to leave after settling for the whole piece.

A woman was arrested in the evening named Mary L Crafts, for larceny. She had just committed petty depredations successively at Boyd & Ledyards, Mack, Oetinger & Co's, and Bradford Brothers.

DETECTED IN THE ACT.—A miserable looking scoundrel entered a store in the same street in the morning, and emptied the money drawer. The noise of the drawer was heard and he was followed at once, and made to disgorge his plunder. There was no one near who cared sufficiently for the public peace to arrest him, so that he got off clean.

We may just as well notify the public that there is a gang of suspicious looking rascals about, and every day, almost, we hear of attempts to break into dwelling houses or stores. Some of them will be brought up with a round turn shortly.

ACCIDENTS IN THE CITY.—We are sorry to learn that on Wednesday morning, a son of Rev Mr SPENCER, pastor of the North Presbyterian church, was struck upon the head by the crank of a well, and very seriously injured. He was scarcely expected to survive yesterday.

A son of Mr JAS H ROGERS was also hurt severely by a kick from a horse, having his jaw broken in two or three places.

THE MENAGERIE.—Crowds of people of all sorts and sizes and ages, visited the caravan yesterday. From many who were present we learn that it gives general satisfaction, being by far the finest collection of animals that has ever visited Milwaukee. The admittance fee is well laid out by any one who attends.

RAILROAD MATTERS.—A delegation from Janesville came in on the cars yesterday morning, on business relative to the proposed Railroad connection with this city.

FOURTH OF JULY—*Finance Committee*.—The Finance Committee is requested to meet at the office of D A J UPHAM Esq, on Wisconsin st, at 8 o'clock this evening.

CATHERINE HAYES.—The celebrated "Swan of Erin," after a very successful tour in Canada gave a concert in Detroit on Wednesday evening last. Shall we not hear her in Milwaukee?

SUNDAY TRAIN STOPPED.—We are requested by the Secretary of the M & M Railroad Co, to state that no *Sunday train* will be run hereafter. We believe that there was none last Sunday, but did not learn the fact in time to notify the public.

THEATRE.—The Chicago *Journal* understands that Mr Rice intends to open his Theatre in this city on the 5th of July.

Arrival of the Baltic.

New York June 12—6 P M

The steamship Baltic arrived at an early hour this morning. She left Liverpool Wednesday June 2d and has consequently made the passage in 10 days 20 hours. She brings 77 passengers and a fair amount of freight.

Cotton market unchanged.

Demand for wheat and flour has been good with considerable sales at full rates of last week.

Corn had realized a further advance of from 1 to 2s per quarter with moderate arrivals. The other American produce prices remain about the same with but little movement.

Not much doing in cloths and yarn.

Western canal flour quoted at 20s9d a 21s6d—Philadelphia and Baltimore at 21s6d a 21s. Canadian at 20s9d a 21s6d. American white wheat at 6s2d a 6s5d. Canadian white at 6s a 6s2d. White corn at 30s6d a 31s. yellow at 32s a 33s3d. mixed at 31s a 31s6d.

ENGLAND.—The floor of the Corn Exchange in Brunswick street, Liverpool, gave way at noon on the 1st inst, precipitating upwards of 100 merchants to the vaults beneath. None were killed, however, although a number were more or less injured.

Nothing doing in Parliament.

The cholera had broken out among the troops in India, who are dying in great numbers. Several officers had also fallen victims.

FRANCE.—The Moniteur declares that the warlike rumors are unfounded, and that the right of the French nation to fix its own form of government has never been contested by other powers.

More refusals to take the oath of allegiance are announced. The refusals come principally from the members of the General Council.

INDIA.—A steamer had arrived, announcing the fall of Rangoon and Martaban, and the capture of 150 pieces of cannon.

Washington, June 12

Mr Cabell of Florida, made a powerful speech to-day justifying the position of the Southern Whigs who are opposed to the Seward Scott party. He avowed their determination to support even the Democratic nominee in preference to Gen Scott as a union candidate. His speech was listened to with deep attention and excited great sensation. The hall was crowded with delegates to the whig convention.

Mr Gentry will speak on Monday, and will sustain the same wide and independent ground.

Delegates to the Whig Convention from the South and West are pouring into the city. Several of the prominent members have called a caucus for to-night to deliberate upon certain interesting measures.

Webster's chances for the nomination are becoming brighter every moment, and he is now openly talked of as the compromise candidate. It is rumored here, that should the convention be unable to select a candidate, upon the first or second ballot, that President Fillmore has prepared a note to be read before the convention, declining the nomination in favor of Mr Webster.

The Webster Excitement in Boston.

Boston June 12

One thousand Webster Whigs, who have been appointed as delegates at large to represent the feeling of this city, will leave here for Baltimore on Monday.

The Whigs of Roxbury meet to-night to choose Webster delegates to the Convention. Webster meetings are also being held in this city and Cambridge.

Charleston, June 11

Letters have been received by the last mail from California, giving pretty certain information that a filibuster movement is intended from California upon the Sandwich Island.

The government has already been put in possession of this information, and will no doubt exert its authority to put a stop to such movements—with what success remains to be seen.

DR. HOOFLAND'S GERMAN BITTERS.
These celebrated medicine is one of the very best in the country, and its good qualities only need to be known, to give it precedence over all others now in use. We have seen its good effects lately after the total failure of many others. This is saying more than we can for any other medicine within our knowledge, and we feel it a duty to recommend the Bitters to the notice of our friends. The genuine is prepared by Dr C M Jackson Phila.

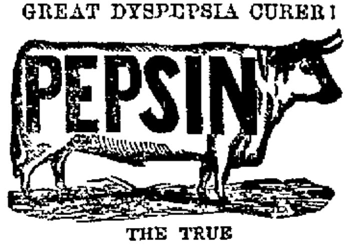
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851 by J S HOUGHTON, M D, in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!



THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J S Houghton, M D, Philadelphia, Pa

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent the Gastric Juice

Half a teaspoonful of PEPSIN, infused in water will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the stomach

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says "An Artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs will be softened, changed, and digested, just in the same manner as they would be in the human stomach"

Dr Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells New York, page 35, states the same great fact, and describes the method of preparation There are few higher authorities than Dr Pereira

Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful

Dr Graham, author of the famous works on "Vegetable Diet," says "It is a remarkable fact in physiology, that the stomachs of animals macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process"

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject—His experiments with Dr Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known "In all cases, he says, "digestion occurred as perfectly in the artificial as in the natural digestions"

Dr John W Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be"

Dr Carpenter's standard work on Physiology, which is in the library of every Physician and is used as a Text Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind

AS A DYSPEPSIA CURER,

Dr HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption It is impossible to give the details of cases in the limits of this advertisement but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness Also for excess in eating and the too free use of ardent spirits It almost reconciles Health with Intemperance

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once No matter how bad they may be, it gives Instant Relief A single dose removes all the unpleasant symptoms, and it only needs to be repeated for a short time to make these good effects permanent Purity of Blood and Vigor of Body follow at once It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c

Dr Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians

Graefenberg Medicines

HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superiors They are emphatically what they are represented to be, *genuine*, and free from *Humbug*, intended as much to *cure* as to *sell* When once used, they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health* In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so generally opposed to the circulation of POPULAR MEDICINES No *Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly abide by its directions in the use of the medicines

A word to the *wise* is sufficient, without the publication of certificates, which we have of the most flattering description all over the Union.

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State and throughout the Union

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no *big bottle humbug*, or pleasant drink, but *as it should be*, a *Medicine* of the greatest power in promoting an entire change in the system, in eradicating those impurities of the blood which are the seeds of almost incurable disease in man

THE GRAEFENBERG DYSENTERY SYRUP—Public approbation has stamped upon it the character of *perfect*. It has checked the ravages of *Cholera* in its last stages, and for bowel complaints it has no equals

THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of *Fevers* in general They act gently, naturally and surely, and in connection with our *Health Bitters*, are a certain and speedy cure for the Fever and Ague The *Bitters* have a wonderful effect in invigorating a debilitated system

THE GRAEFENBERG GREEN MOUNTAIN OINTMENT—In reducing inflamation, healing burns bruises, and all injuries to the body, we can confidently recommend this salve to all as being most efficacious In the *Mineral Region* of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION—An unprecedented article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes Try it.

THE GRAEFENBERG UTERINE CATHOLICON—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians For Prolapsus Uteri, and all complaints incident to *Females*, it will be found a safe and speedy remedy Let no *afflicted woman* be deterred by delicacy or prejudice from giving it a fair trial In quire of the agent for the pamphlet in relation to it

THE GRAEFENBERG PILE OINTMENT, CHILDS PANACEA, &c., are all invaluable remedies, directions for which and all the medicines are attached to each

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 16th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some six teen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

DOUBLE OVEN COOKING STOVE,

(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The **TRIUMPH**, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The **PREMIUM** is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The **JUNO PARLOR** is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The **RADIATOR** is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

THE WORLD'S FAIR

PREMIUM SAFES.

DEPOT,

Green Block, Water St.,

(Between Maiden Lane and Wall Street,)

NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store.) viz. Messrs. Stillwell & Montross, and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co., in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safes combined.

SALAMANDER SAFES.

WILDER'S PATENT AND RICH'S PATENT COMBINED.

$100,000 SAVED.

FIRE in Pearl Street and Fletcher Street, New York.—Three Stores and their contents destroyed. Deeds before words!

RICH'S SAFES AGAIN!

ELEVEN SAFES of different makers consumed, with their contents! The Safe made by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them!

MR. GILBERT'S LETTER.

THE FIRE IN FLETCHER AND PEARL-STS, NEW YORK.

New York, Dec. 29, 1851.

MESSRS. STEARNS and MARVIN, successors, to C. Rich & Co., No 146, Water Street, New York—Sirs, when the fire was consuming my place of Business, No. 216, Pearl street, I was absent in Rensslaer County, testing a new cleaning apparatus in connection with my Excelsior Thrasher, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes, purchased from Mr. Marvin some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operations; after which it required 51 hours of labor and application to raise the Salamander from its ashy bed. You may judge of my anxiety during this delay, and my agreeable surprise upon opening the safe in the presence of a number of gentlemen, to find my books and papers saved, and as legible as they were previous to the fire. The intense heat to which the safe was subjected, can be conjectured from the condition of another safe, (not a Salamander) of which an iron skeleton frame only remained, and not a vestige of a book. They were companions in the same office, on the second floor, from which they fell upon crates of earthen ware in the cellar, the ruined safe upon the Salamander. If their position had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,500, yet the salvation of my books in your Salamander, with the representatives of $100,000, and important documents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you, and explain its merits, at my present office, No. 251 Pearl street, where I shall remain until the new building, No. 216, is erected.

Yours respectfully, JOSEPH C. GILBERT.

The undersigned invite country merchants and those interested in the preservation of their books from fire, (but particularly those having Rich's safe in use) to call at the depot 146 Water street, New York, to see the inferior of Mr. Gilbert's safe with the books undisturbed, which he has kindly permitted to remain for the satisfaction and gratification of the public.

HATTERS,

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

HAWKINS'

STAVE DRESSING MACHINE.

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey

BARRELS,

and PIPES or HOGSHEADS, at the rate of

600 Whiskey or 800 Flour Barrel Staves

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and *to any exquisite bulge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters, and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pains, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrate the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF

In a few seconds

WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.

PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Aconitine, Belledonna Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.*

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF

IS FREE FROM MORPHINE,

And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,

Diarrhœa, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.

PAINS RELIEVED IN FIVE MINUTES.

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.

CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.

Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the stomach, Intestines, in the Liver, Kidney's, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAYS MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it strong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow,—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

Radway's Circassian Balm is the "ne plus ultra."

DR. HOOFLAND'S CELEBRATED GERMAN

BITTERS,

Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch-st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.

[From the Boston Bee.]

The Editor said, Dec. 22d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25 "DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine'—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

A Word of Caution to the Public:

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co., of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c. all of which have been got up on the reputation of Perry Davis' Pain Killer.
